

Disaster Preparedness Training

In 2009-2010 our Safety Committee members were offered online Disaster Preparedness training. The trainings were introductory level courses that are recommended for all emergency responders. Below are the websites for the 2 trainings that were offered last school year.

Courses are worth 0.3 CEUs each.

<https://training.fema.gov/emiweb/is/is100a.asp>

This is for the National Incident Management System (NIMS) ICS 100 (IS 100) course.

<http://training.fema.gov/emiweb/is/is700a.asp>

This is for the NIMS IS 700 course.

When the course is completed and the test is passed each person will be eligible to receive an Emergency Management Institute-FEMA Certificate.
